

Crane Applications

Most important applications for Jekko Cranes:

✓ 1	Glazing Works	p. 04
✓ 2	Working on Skyscrapers	p. 06
✓ 3	Rooftop Work	p. 08
✓ 4	Steel Construction	p. 10
✓ 5	Civil Engineering and Major Projects	p. 12
✓ 6	Residential Construction	p. 14
✓ 7	Timber Frame Erection	p. 16
✓ 8	Stonework and Monuments	p. 18
✓ 9	Industrial Maintenance (Plant, Factory & Automotive)	p. 20
✓ 10	Electric & Nuclear Power Plants	p. 22
✓ 11	Confined Areas	p. 24
✓ 12	Shopping Centres	p. 26
✓ 13	Galleries & Museums	p. 28
✓ 14	Railways	p. 30
✓ 15	Underground, Tunnels & Mining	p. 32
✓ 16	Marine, Ports & Harbours	p. 34
✓ 17	Aviation Industry & Airports	p. 36
✓ 18	Military	p. 38
✓ 19	Oil & Gas	p. 39
✓ 20	Outdoors	p. 40
✓ 21	Landscaping & Horticulture	p. 42
✓ 22	Swimming Pools and Parks	p. 43
✓ 23	History & Heritage	p. 44
✓ 24	Easy Moving: Through Doors, Up Elevators	p. 46
✓ 25	Working with Man-Basket	p. 48
✓ 26	Jekko Tools	p. 50
✓ 27	Other Applications	p. 52
✓ 28	Customised Solutions	p. 54

Glazing Works

The use of vacuum lifters for glass fitted on manipulators (integrated with our mini-cranes) or on hook lifts, allow our mini-cranes to install glass facades on buildings, homes and skyscrapers. Where requested, we handle glass panes and non-porous materials, especially in small spaces.

SKILLS:

-  Manipulators
-  Hook Vacuum Lifters
-  Radio Remote Control
-  Maximum Sensitivity

Working on Skyscrapers

Mini-cranes used to install glass facades on external walls of skyscrapers of any height. This is made possible by being able to reach the upper floors of skyscrapers with the help of service lifts, tower cranes or truck cranes. In this case,

our mini-cranes use a winch with cantilever arm. The operator is able to work via radio remote control on the lower levels, installing the panels in complete safety. This mini-crane saves time and money compared to larger cranes.

SKILLS:

-  Use of Winch
-  Radio Remote Control
-  Anti-Tilt System

SPX424, COLOMBIA

Rooftop Work

Lightweight mini-cranes can be positioned on top of roofs and ceilings to lift material from the ground. This is made possible by the low ground pressure exerted by the tracks and by the use of platforms to distribute the load through the stabilisers.

SKILLS:

-  Low Ground Pressure
-  Low Weight
-  Maximum Safety

Electric and Nuclear Power Plants

Specific works that require high standards of precision, lightness and manoeuvrability such as those guaranteed by the Jekko mini-cranes. Our mini-cranes with battery powered (standard or lithium) or electric single-phase or three-phase electric motors allow working inside plants in "eco mode," which is fundamental in these industries.

SKILLS:

-  Electric/Battery-Powered Motors
-  Virtual Wall
-  Use of Jibs

The compact size of the Jekko mini-cranes makes them ideal for use with military helicopters, even in remote locations and under any condition. Their reliability and safety also allow them to be used in military factories for the production or maintenance of military machinery and vehicles.

Speed, adaptability and flexibility of use makes the Jekko mini-cranes the best choice for the oil and gas industry. The ATEX versions allow working on platforms in complete safety.
